It is possible to score goals and lose the game. It is possible to win battles and lose the campaign. It is possible to make money and miss a fortune. The short-sighted man suffers, no matter where he is found; he may see some things with excessive clarity, but he fails to get the true perspective which will enable him to arrive at wise conclusions. He gains one thing, but he loses something better.

This is a very common error. The student makes it when he forgets the life-goal in thinking of the medal or scholarship. The businessman misses his way when he chooses a present gain and forfeits ten times as much in the future. The youth makes such a mistake when he marries good looks, and forgets the character which will be necessary to command his respect for years to come.

Man was made to think, and unless he uses his brain he will stumble into no end of unseen problems. There is a future, and it cannot be evaded; and when it is reached it cannot be changed, for we are deciding what it shall be. We are our own destiny-makers, it is well to face the future with care and caution.

- Q7) (a) Prepare an advertisement of a new mobile hand-set.
- (b) Draft a memorandum for your subordinates directing them to be more efficient in their working.
