Cruises.

Cruises offer a new vacations often
luxury are they
give the passengers and opportunity
to visit several places without
the need to pack and
unpack at an affordable
price that cannot be matched
by air land vacation
alternative

Cruises are
design as a resort at sea
the ability to visit to
different ports and country

is an added attraction to help sell a cruise package.

All cruise fares include the actual water transportation, the cabin, the meals, all food and all the entertainment as the part of the package.

On some ship there are specialty restaurant with offer more close in some time of an extra price. The extras on board include shop purchases, shore excursions and personal items and drinks from the bar.

The amenities on a cruise ship include swimming pool, fitness center, casino. On most cruise ship has library, cinemas, net internet, bars and deck sports including table tennis, golf practice nets and some time hand balls.
