[SECTION-A]

[Reading Comprehension]

Note : Read the passage given below and answer the questions that follow :

To make our life a meaningful one, we need to mind our thoughts, for our thoughts are the foundation, the inspiration, and the motivating power of our deeds. We create our entire world by the way we think thoughts are the causes and the conditions are the effects.

Our circumstances and condition are not directed by the world outside; it is the world inside us that creates the outside. Self-

awareness comes from the mind, which means soul. Mind is the sum total of the states of the consciousness grouped under thought, will and feeling. Besides self-consciousness we have the power to choose and think. Krishna says, "No man resteth a moment inactive." Even when inactive on the bodily plane we are all the time acting on the thought plane. Therefore, if we observe ourselves, we can easily mould our thoughts. If our thoughts are pure and noble, naturally action follows the same. If our thoughts are filled with jealousy, hatred and greed, our actions will be the same.

Karmically, however, thought or intent is more responsible and dynamic than an act. One may perform a charitable act but, if he does not think charitably and is doing the act just for the sake of gain and glory, it is his thoughts that will determine the result. Theosophy teaches us that every thought, no matter how fleeting, leaves a seed in the mind of thinker. These small seeds together make up a large thought seed and determine one's general character. Our thoughts affect the whole body. Each thought once generated and sent out becomes independent of the brain and mind and will live upon its own energy depending upon its intensity. Trying to keep a thought from our mind can produce the very state we are trying to avoid. We can alter our environment to create the mood. When for instance, we are depressed, if we sit by ourselves trying to think cheerful thought, we often do not succeed. But if we mix with people who are cheerful we can bring about a change in our mood and thoughts. Every thought we think, every act we perform, creates in us an impression, like everything else, is subject to cyclic law and becomes repetitive in our mind. So we alone have the choice to create our thought and develop the kind of impression that make our action more positive.
