B.C.A. Examination, Dec.-2023 Computer Networks

(BCA-503)

Time: Three Hours | [Maximum Marks: 75

Note: Attempt wiestions from all sections as per instructions.

Section-A

(Very Short Answer Type Questions)

Note: Attempt **all** questions. Each question carries **3** marks. Very short answer is required not exceeding 75 words.

What do you under stand by distributed processing?

Explain the use of Bridges.

Write a short note on e-mail.

3

3

 Explain various network categories based on size of network.

Compare Byte-oriented versus bit-oriented protocols.

Section-B

(Short Answer Type Questions)

Note: Attempt any **two** questions out of the following three questions. Each question carries 7.5 marks. Short answer is required not exceeding 200 words.

- What are the approaches used to provide a range of Quality of service (QoS)? 7.5
- Brief about the importance of simple Network management Protocol (SNMP).

7.5

.o. 18023/2

Describe the function & responsibilities
 of session layer.

Section-C

(Long Answer Type Questions)

Note: Attempt any three questions out of the following five questions. Each question carries 15 marks. Answer is required in detail.

- Outline the steps involved in building a computer network. Give the detailed description for each step.
- Analyse various error detection techniques in trans mission of data. 15
- 11. What is Topology? Describe various types of topology in computer Network with example. Also give the advantages & disadvantages of each.

What is congestion control. How congestion control is different from flow control.
 Explain various congestion control techniques in computer network.

13. Write short notes on any three: 15

- (a) ISDN
- (b) Routers
- (c) Connection management
- (d) TDM & FDM
- (e) DTE-DCE Interface
