## 6<sup>th</sup> Sem./CSE/Information Technology/ 2022(S) Th-3 Cloud Computing

Full Marks: 80 Time- 3 Hrs

Answer any five Questions including Q No.1& 2 Figures in the right hand margin indicates marks

1. Answer All questions

 $2 \times 10$ 

- a. What do you mean by cloud computing?
- b. Name the three basic components of federated cloud?
- Mention the name of different types of service model in cloud c. computing?
- d. What do you mean by virtualization? Write the full form of VMM.
- e. Write down the basic components of cloud computing.
- ${f f}$  What does RPO & RTO stand for?
- g. Name 3 companies provide PaaS.
- h. Write down the need of a digital certificate.
- Define agility on cloud and cloud interoperability?
- J. Mention the name of various types of VPN.
- 2. Answer Any Six Questions

6 x 5

- a. Outline the characteristics of cloud computing.(any five)
- b. Explain in detail about the cloud adoption.
- c. Sum up the Strategies of Disaster Recovery.
- d. Describe about the Deployment model in Cloud Computing.

- Portray the Key principles behind the Cloud Computing Device Fault Tolerance.
- f. Explain the working principle of cloud ecosystem.
- g What does Hadoop stand for? Illustrate the layers of Hadoop architecture?
- Outline the components of Cloud Computing. Explain about the Cloud 10 Computing layers with proper diagram.
- 4 Mention the name of various cloud computing organizations that 10 focused on addressing standards. Explain about the Role of standards in cloud-computing environments
- Define data centre in cloud computing. Write down the various 10 components of data centre. Explain about the Cisco Data Centre Network architecture in brief.
- Explain the need of virtualization in cloud computing. Describe various 10 types of virtualization in cloud computing.
- Write down the name cloud technologies (any three). Outline the case 10 study of Google App Engine and Microsoft Azure.
